Stock Market Basics Rule #2: Stay Liquid There are two main components to this rule. First, the stock has to be actively traded — at least 100,000 shares in daily volume. If trading stocks below that level, you run the risk of being stuck in a position simply because there are no traders on the other side.

Written in an accessible style, an introduction to the basics of investing explains how to read a stock table in the newspaper, understand an annual report, and why everyone should pay attention to the stock market. Original. 150,000 first printing.

With an insider's view of the mind of the master, Mary Buffett and David Clark have written a simple guide for reading financial statements from Buffett's successful perspective. They clearly outline Warren Buffett's strategies in a way that will appeal to newcomers and seasoned Buffettologists alike. Inspired by the seminal work of Buffett's mentor, Benjamin Graham, this book presents Buffett's interpretation of financial statements with anecdotes and quotes from the master investor himself. Destined to become a classic in the world of investment books, Warren Buffett and the Interpretation of Financial Statements is the perfect companion volume to The New Buffettology and The Tao of Warren Buffett.

Here's the most comprehensive, up-to-date primer on successful stock market investing. It discusses the full range of financial products, how to develop a personal strategy, full service vs. discount brokers, the OTC market, and more.
