The Alvenrus, a vicious Bludgen breed of man and dog, are on a sinister mission to wipe out the existence of all beings in the magical land of Arthorias. Not even their Bludgen brothers, the Khaz'ans and the Boones, are safe from their tenacious kin. Unbeknownst to Dwendel, revealing the whereabouts of the enemy is only a small part of his actual purpose. There is something greater, more powerful and more important, to the survival of humans and Bludgens alike. A mystical tome is known to possess greater powers than anyone or anything has ever seen before. So powerful it possesses the ability to give life or take it away at will. Can Dwendel bolster the fading alliance among the kingdoms of men and turn the tides of this momentous war between two opposing races? Can he unravel the mysteries of his dismal past in time to save the people of Plaeonras? The enthralling world of Dwendel, Gendrich, and the people of Plaeonras, comes to life in this exciting new novel from Marcus Redgrave. A classic study of the development of the Saturn launch vehicle that took Americans to the Moon in the 1960s. This Saturn rocket was developed as a means of accomplishing President Kennedy's 1961 commitment for the U.S. to reach the Moon before the end of the decade. This book not only tells the important story of the development of the Saturn rocket, and the people who designed and built it, but also recounts the stirring exploits of its operational life from orbital missions around Earth testing Apollo equipment to the Moon and back. Essential reading for anyone seeking to understand the development of space flight in America. Black and white photos.
