History & Archaeology | Ancient Origins

Archaeology is the study of human activity in the past, primarily through the recovery and analysis of the material culture and environmental data that they have left behind, which includes artifacts, architecture, biofacts and cultural landscapes. The development of the field of archaeology has it roots with history and with those who were interested in the past, such as kings and queens who wanted to show past glories of their respective nations. The 5th-century-BCE Greek historian Herodotus w

History of archaeology - Wikipedia

The strength of a History and Archaeology degree is its intellectual breadth and flexibility. This makes our graduates an attractive proposition for employers looking for analytical and lateral thinkers. Studying History, Archaeology and Heritage prepares you for the workplace by providing academic skills and honing personal ones:

History, Archaeology and Heritage | Bangor University

Archaeology, also spelled archeology, the scientific study of the material remains of past human life and activities. These include human artifacts from the very earliest stone tools to the man-made objects that are buried or thrown away in the present day: everything made by human beings—from simple tools to complex machines, from the earliest houses and temples and tombs to palaces, cathedrals, and pyramids.

Archaeology | Britannica
