Second, the manuals for the 475/575/615 range of engines, as well as for the 825 and 1160 are on the DBA web site, and if your injection pump is a CAV AA series pump it has an internal sump for the lub oil, which is not connected to the engine lubrication system - this should be drained and refilled every 100hours using engine oil. The drain plug is a hex head bolt at the bottom back end of ...
