I found one in the Icom IC-707. This rig of mine has the narrow CW filter (which is kinda essential for serious cw work) but no FM option and I haven't missed it! The rig does everything that is asked of it, puts out a good signal, has a ripper of a NB/preamp/attenuator which REALLY work, and hasn't faltered being on 12 hours a day.

Out of warranty service. Products outside the Icom America warranty period will incur a minimum one hour labor fee of \$92.40, plus any parts replaced. Icom will contact the customer with the repair estimate. If the repair estimate is refused, a half hour labor fee of \$46.20 will apply.

Repair - Icom America

IC-707 - \$175 to \$225 - good "starter" HF rig, similar to IC-725, but has a front-firing speaker and a bar-graph meter.
IC-77 - \$250 to \$300 - commercial variant of IC-707. 50 channels, programmable, 100W output. IC-735 - \$200 to \$275 - good, full-featured compact radio, includes PBT, IF notch filter, keyer. Somewhat noisy synthesiser.

I have decided to no longer service the ICOM 781 & R9000, Also Kenwood Tube Rigs, 830, 930, 940, 430 and all Yaesu equipment. There are several reasons for this, most revolve around shipping and parts availability. Due to issues with shipping to Canada, and the high cost of the shipping, I am no longer accepting shipments from Canada for repair.
