Presents a guide to devices that are designed to enhance one's life, including health aids, communication devices, computer gadgets, and appliances for the home.

During the Cold War, freedom of expression was vaunted as liberal democracy ' s most cherished possession—but such freedom was put in service of a hidden agenda. In *The Cultural Cold War*, Frances Stonor Saunders reveals the extraordinary efforts of a secret campaign in which some of the most vocal exponents of intellectual freedom in the West were working for or subsidized by the CIA—whether they knew it or not. Called "the most comprehensive account yet of the [CIA ' s] activities between 1947 and 1967" by the *New York Times*, the book presents shocking evidence of the CIA ' s undercover program of cultural interventions in Western Europe and at home, drawing together declassified documents and exclusive interviews to expose the CIA ' s astonishing campaign to deploy the likes of Hannah Arendt, Isaiah Berlin, Leonard Bernstein, Robert Lowell, George Orwell, and Jackson Pollock as weapons in the Cold War. Translated into ten languages, this classic work—now with a new preface by the author—is "a real contribution to popular understanding of the postwar period" (*The Wall Street Journal*), and its story of covert cultural efforts to win hearts and minds continues to be relevant today.

Kovac and Liska take on multiple twisted cases as #1 *New York Times* bestselling author Tami Hoag explores a murder from the past, a murder from the present, and a life that was never meant to be. As the bitter weather of late fall descends on Minneapolis, Detective Nikki Liska is restless, already bored with her new assignment to the cold case squad. She misses the rush of pulling an all-nighter and the sense of urgency of hunting a killer on the loose. Most of all she misses her old partner, Sam Kovac. Kovac is having an even harder time adjusting to Liska ' s absence but is distracted from his troubles by an especially brutal double homicide: a prominent university professor and his wife, bludgeoned and hacked to death in their home with a ceremonial Japanese samurai sword. Liska ' s case—the unsolved murder of a decorated sex crimes detective—is less of a distraction: Twenty-five years later, there is little hope for finding the killer who got away. Meanwhile, Minneapolis resident Evi Burke has a life she only dreamed of as a kid in and out of foster care: a beautiful home, a loving family, a fulfilling job. But a danger from her past is stalking her idyllic present, bent on destroying the perfect life she was never meant to have. As the trails of two crimes a quarter of a century apart twist and cross, Kovac and Liska race to find answers before a killer strikes again.

In what is widely considered the most influential book ever written by Walter Lippmann, the late journalist and social critic provides a fundamental treatise on the nature of human information and communication. The work is divided into eight parts, covering such varied issues as stereotypes, image making, and organized intelligence. The study begins with an analysis of "the world outside and the pictures in our heads", a leitmotif that starts with issues of censorship and privacy, speed, words, and clarity, and ends with a careful survey of the modern newspaper. Lippmann's conclusions are as meaningful in a world of television and computers as in the earlier period when newspapers were dominant. *Public Opinion* is of enduring significance for communications scholars, historians, sociologists, and political scientists. Edited and annotated by H.L.M., this is a selection from his out-of-print writings. They come mostly from books—the six installments of the *Prejudices* series, *A Book of Burlesques*, *In Defense of Women*, *Notes on Democracy*, *Making a President*, *A Book of Calumny*, *Treatise on Right and Wrong*—but there are also magazine and newspaper pieces that never got between covers (from the *American Mercury*, the *Smart Set*, and the *Baltimore Evening Sun*) and some notes that were never previously published at all. Readers will find edification and amusement in his estimates of a variety of Americans—Woodrow Wilson, Aimee Semple McPherson, Roosevelt I and Roosevelt II, James Gibbons Huneker, Rudolph Valentino, Calvin Coolidge, Ring Lardner, Theodore Dreiser, and Walt Whitman. Those musically inclined will enjoy his pieces on Beethoven, Schubert, and Wagner, and there is material for a hundred controversies in his selections on Joseph Conrad, Thorstein Veblen, Nietzsche, and Madame Blavatsky.
