When reading images from the FCR 5000 series, the size shown in the exposure menu box will be changed from 17"x14" to 14"x17" or 10"x8" to 8"x10" after the completion of image reading processing, if IP reading size has been determined to be 17"x14" or 10"x8". Note that this is a symptom that can occur with respect to representation for reason of internal processing and image reading processing has completed normally.
