Generalized  
Monotonicity  
monotonicity of  
bifunctions or  
multifunctions is a  
rather new concept in  
optimization and  
nonsmooth analysis. It  
is shown in the present  
paper how  
quasiconvexity,  
pseudoconvexity, and  
strict pseudoconvexity

While initial efforts to generalize convexity and monotonicity were limited to only a few research centers, today there are numerous researchers throughout the world and in various disciplines engaged in theoretical and applied studies of generalized convexity/monotonicity (see <http://www.gencon>
