Edition has been arranged for piano/vocal/chords. Every effort has been made for the arrangement to be playable on the piano and to sound as close to the original recording as possible. Usually, a separate vocal line is used so that singers can easily sing along, and all lyrics as heard on the original recording are always included. Almost all piano/vocal/chords arrangements are written in the original key in which they were recorded. Special guitar chord frames appear throughout the arrangement so that guitarists can play along.

A popular fascination with fame and stardom has existed in Western culture since the late eighteenth century; a fascination that, in the twenty-first century, reaches into almost every facet of public life. The pervasive nature of stardom in modern society demands study from the perspectives of a range of distinct but thematically connected

disciplines. The exploration of intersections between broader considerations of stardom and the discourses of popular music studies is the genesis for this volume. The chapters collected here demonstrate the variety of work currently being undertaken in stardom studies by scholars in Australia. The contributions range from biographical considerations of the stars of popular music, contributions to critical discourses of stardom in the industry more broadly, and the various ways in which the use of astronomical metaphors, in both cultural commentary and academic discourse, demonstrate notions of

stardom firmly embedded in popular music thought. Not only do these chapters represent a range of perspectives on popular music, stars and stardom, they provide eloquent and innovative contributions to the developing discourse on stardom in popular music.
