Over the past two hundred years, encounters between Iran and Russia have been both rich and complex. This book explores the myriad dimensions of the Iranian-Russian encounter during a dramatic period which saw both Iran and Russia subject to revolutionary upheavals and transformed from multinational dynastic empires typical of the nineteenth century to modernizing, authoritarian states typical of the twentieth. The collection provides a fresh perspective on traditional preoccupations of international relations: wars and diplomacy, the hostility of opposing nationalisms, the Russian imperial menace in the nineteenth century and the Soviet threat in the twentieth. Going beyond the

traditional, this book examines subaltern as well as elite relations and combines a cultural, social and intellectual dimension with the political and diplomatic. In doing so the book seeks to construct a new discourse which contests the notion of an implacable enmity between Iran and Russia Bringing together leading scholars in the field, this book demonstrates extensive use of family archives, Iranian, Russian and Caucasian travelogues and memoirs, and newly available archives in both Iran and the countries of the former Soviet Union. Providing essential background to current international tensions, this book will be of particular use to students and scholars with an interest in the

Middle East and Russia.

Russians in Iran seeks to challenge the traditional narrative regarding Russian involvement Iran and to show that whilst Russia's historical involvement in Iran is longstanding it is nonetheless much misunderstood. Russia's influence in Iran between 1800 and the middle of the twentieth century is not simply a story of inexorable intrusion and domination: rather, it is a complex and interactive process of mostly indirect control and constructive engagement. Drawing on fresh archival material, the contributors provide a window into the power and influence wielded in Iran not just by the Russian government

through it traditional representatives but by Russian nationals operating in Iran in a variety of capacities, including individuals, bankers, and entrepreneurs. Russians in Iran reveals the multifaceted role that Russians have played in Iranian history and provides an original and important contribution to the history and international relations of Iran, Russia and the Middle East.

Rather than a centralized state, Iran in the nineteenth century was a delicate balance between tribal groups, urban merchant communities, religious elites, and an autocratic monarchy. While Russia gained an increasingly dominant political role in Iran over the

course of this century, Russian influence was often challenged by banditry on the roads, riots in the cities, and the seeming arbitrariness of the Shah. Iran and Russian Imperialism develops a comprehensive picture of Russia's historical entanglements with one of its most important neighbours in Asia. It recounts how the Russian Empire strived to gain political influence at the Persian court, promote Russian trade, and secure the enormous southern borders of the empire. Using hitherto often neglected documents from archives in Russia and Georgia and reading them against the grain, this book reveals the complex reactions of different groups in Iranian society to Russian imperialism. As it turns out, the Iranians

were, in the words of the Russian orientalist Konstantin Smirnov, "ideal anarchists," whose resistance to imperial domination, as well as to centralized state institutions more generally, impacted developments in the region in the century to come. Iran's troubled relationship with the wider world continues to be a topic of considerable interest to historians, yet little focus has been given to Russia's historical connections to Iran. This book thus represents a valuable contribution to Iranian and Russian History, as well as International Relations.

The First World War is often described as a regional war with few repercussions beyond Europe. However,

by the dawn of the 20th century, global political and economic entanglements of empires and nation states had reached unprecedented dimensions.

Consequently, the war affected the lives of millions of combatants and civilians alike: politically, socially and culturally. This book shifts the Eurocentric focus of Europeans fighting and dying on European battlefields to a broader, global perspective. With local accounts and perceptions ranging from Argentina to Afghanistan, from Iran to Senegal, the volume sheds light on the multitude of contributions to and consequences of the First World War all around the world.

In 1888, there were just four British consulates in the country; by 1921 there were twenty-three. H. Lyman Stebbins investigates the development and consequences of British imperialism in Iran in a time of international rivalry, revolution and world war. While previous narratives of Anglo-Iranian relations have focused on the highest diplomatic circles in Tehran, London, Calcutta and St. Petersburg, this book argues that British consuls and political agents made the vast southern borderlands of Iran the real centre of British power and influence during this period. Based on British consular archives from Bushihr, Shiraz, Sistan and Muhammarah, this book reveals that Britain, India and Iran were linked

together by discourses of colonial knowledge and patterns of political, military and economic control. It also contextualizes the emergence of Iranian nationalism as well as the failure and collapse of the Qajar state during the Iranian Constitutional Revolution and the First World War.

Iran's Revolutionary Guard Corps, also known as the 'Sepah', has wielded considerable and increasing power in Iran in recent decades. Established in 1979 by Ayatollah Khomeini as a paramilitary organisation charged with protecting the nascent Islamic regime and countering the untrustworthy Imperial army (or 'Artesh'), the Sepah has evolved into one of the most

powerful political, ideological, military and economic players in Iran over recent years. The Sepah is entrusted with a diverse set of indoctrination apparatus, training programmes and system welfare provisions intended to broaden support for the regime. Although established as a paramilitary organisation, the Sepah developed to have its own ministry, complex bureaucracy and diversified functions, alongside its own network and personnel. This book provides a comprehensive overview of the Sepah and its role. It examines the position of the Sepah in Iranian state and society, explores the nature of the Sepah's involvement in politics, and discusses the impact of the Sepah's political rise on

Iran's economy and foreign policy. Contemporary Iran can only be fully understood by an awareness of the ongoing in-fighting among regime factions and increasing popular demands for social change - knowing about the Sepah is central to all this.

The agreement reached in Vienna on 14 July, 2015 between Iran and the P5+1 (United States, Russia, China, France, United Kingdom, Germany) has been greeted as an historical achievement. While offering a long-lasting negotiated solution to one of the biggest

crises of the last decade, the deal represents an opportunity for a deep recalibration of the balance of power in the Middle East. It also paves the way to some sort of rapprochement between Iran and the United States. But the deal is also likely to have an impact on Iranian domestic politics, not least on its economy, which, after repeated rounds of sanctions, languishes in deep crisis.

The most significant challenge to the post-Cold War international order is the growing power of ambitious states opposed to the West. Iran, Russia and China each view the global structure through the prism of historical experience. Rejecting the universality of

Western liberal values, these states and their governments each consider the relative decline of Western economic hegemony as an opportunity. Yet cooperation between them remains fragmentary. The end of Western sanctions and the Iranian nuclear deal; the Syrian conflict; new institutions in Central and East Asia: in all these areas and beyond, the potential for unity or divergence is striking. In this new and comprehensive study, Ariane Tabatabai and Dina Esfandiary address the substance of this 'triple axis' in the realms of energy, trade, and military security. In particular they scrutinise Iran-Russia and the often overlooked field of Iran-China relations. Their argument - that interactions between the three
