Book Description. Updated with new information, illustrations, and leadership tools, Leading the Lean Enterprise Transformation, Second Edition describes how the metrics used by Toyota drive every line item in a financial statement in the right direction. Rather than focus on Lean tools and principles, the new edition of this bestselling reference focuses on what may be the least understood and most critical aspect of a Lean transformation: the building of a Lean culture.

leading the lean enterprise transformation
In leading a lean transformation, this is critical – resistance often happens when folks don't believe that any improvements need to be made. If we begin from a point that is common point of departure or jumping off point and – even – begin with a common cause.
