The charger for the M2500 is a standard affair and it plugs into the back of the earpiece. The status indicator light towards the back of the earpiece turns green when the unit is fully charged. On the top of the earpiece is a multifunction dial: click it back and forth for volume, and press it in to turn the unit on and off.

Mandino is the most widely read inspirational and self-help author in the world. Author of 18 books with total sales of more than 36 million copies sold in 22 languages.

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. Robert J. Blackwell Assistant Secretary for Maritime Affairs

This book provides an introduction to Bluetooth programming, with a specific focus on developing real code. The authors discuss the major concepts and techniques involved in Bluetooth programming, with special emphasis on how they relate to other networking technologies. They provide specific descriptions and examples for creating applications in a number of programming languages and environments including Python, C, Java, GNU/Linux, Windows XP, Symbian Series 60, and Mac OS X. No previous experience with Bluetooth is assumed, and the material is suitable for anyone with some programming background. The authors place special emphasis on the essential concepts and techniques of Bluetooth programming, starting simply and allowing the reader to quickly master the basic concepts before addressing advanced features.

Here are more than 60 of the best articles that have appeared for more than a decade in Success Unlimited magazine. They cover such topics as the power of faith, ideas, love, courage and mind which will help you to discover your hidden potentials and achieve success. Some of most outstanding individuals reveal the way to happiness, health and success through their own experiences and reflections on life or the stories of people they have known and admired. World-renowned clergymen like Preston Bradley, Norman Vincent Peale and Harold Blake Walker describe how you can develop your natural talents, stop worrying and achieve seemingly impossible goals. Mahatma Gandhi tells why he is convinced that organized mind-power is greater than military power. There are many other fascinating articles, including one by W. Clement Stone on his extraordinary career from Chicago newsboy at the age of six to the head of a vast commercial and publishing empire. Of particular interest is the section entitled Sales Unlimited with its practical down-to-earth advice for salesman and would-be sales managers.

'Janey is like a whirlwind of selflessness. A beautiful spirit in a beautiful country doing a beautiful thing. I encourage my children to be more 'Janey'. With more positive spirits like Janey, the world would be a better place.' - Ben Fogle In 2014 and in her mid-twenties, Janey Lowes had been a vet for just two years when she left her home in County Durham and went travelling. Visiting Sri Lanka, she was horrified to see the state of so many of the island's dogs, in particular the three million strays. Over 5,000 miles from home, Janey decided there and then that she was going to move to the island indefinitely and do everything within her power to help them. She raised £10,000 to get started, setting up a charity called WECare Worldwide, and began work. Frightened, determined and excited all at the same time, she found a local who was willing to work with her and began scouring the streets for dogs in need. Some she patched up as best she could at the roadside, others she brought back and treated in a make-shift surgery she had cobbled together in her new home. With very little equipment, she and her small team came up with new and ingenious ways to treat the animals. In this highly inspiring and heartfelt book full of challenges and adventure, Janey introduces us to her world and the tireless work she carries out. As she says, 'I feel as though all these dogs are my dogs and I have a responsibility to them.' In it, we meet many of the colourful characters who have come to offer help, along with innumerable street dogs who have suffered all sorts of trauma and injury, only to be scooped up by Janey and her team and saved.

Master storyteller Diana Wynne Jones presents a riveting collection of unpredictable tales, including: A cat tells how the kindhearted wizard she owns is suddenly called upon to defeat a horrific Beast. When Anne has mumps, her drawings come to life, and she must protect her home from them. Four children become involved in the intrigue surrounding an innocent prince, an evil count, and a brave outlaw. These fifteen stories and one novella will enchant, startle, and surprise!
