Paul Klee was endowed with a rich and many-sided personality that was continually spilling over into forms of expression other than his painting and that made him one of the most extraordinary phenomena of modern European art. These abilities have left their record in the four intimate diaries in which he faithfully recorded the events of his inner and outer life from his nineteenth to his fortieth year. Here, together with recollections of his childhood in Bern, his relations with his family and such friends as Kandinsky, Marc, Macke, and many others, his observations on nature and people, his trips to Italy and Tunisia, and his military service, the reader will find Klee's crucial experience with literature and music, as well as many of his essential ideas about his own artistic technique and the creative process.

The book analyzes the complex relationship between languages in the bilingual mind with a focus on motion event typology and the acquisition of Spanish as a second language (L2). The author starts out by examining L1 patterns which are transferred to less complex L2 systems. The data discussed was elicited by German learners of Spanish. A similar transfer is observed when L1 is typologically and genetically close, as in the case of French and Italian learners of Spanish. Furthermore, the author clarifies the relevance of intra-typological differences within the same linguistic family, including important differences in the lexicalization patterns of Italian with respect to French and Spanish. The findings contribute to our understanding of the field of motion event typology and thinking-for-speaking. The book demonstrates that conceptual transfer is present in different aspects of the motion lexicalization domain. Interestingly, there are some challenging aspects both for speakers whose first language is typologically different and for those whose language is typologically close. The book offers suggestions on how these challenges in the restructuring of meaning in L2 can be addressed in language teaching. Specifically, pedagogical translation and mediation present promising pathways to the strengthening of semantic competences in the L2.

This volume investigates the ways in which Italian women writers, filmmakers, and performers have represented female identity across genres from the immediate post-World War II period to the turn of the twenty-first century. Considering genres such as prose, poetry, drama, and film, these essays examine the vision of female agency and self-actualization arising from women artists' critique of female identity. This dual approach reveals unique interpretations of womanhood in Italy spanning more than fifty years, while also providing a deep investigation of the manipulation of canvases historically centered on the male subject. With its unique coupling of generic and thematic concerns, the volume contributes to the ever expanding female artistic legacy, and to our understanding of postwar Italian women's evolving relationship to the narration of history, gender roles, and these artists' use and revision of generic convention to communicate their vision.

Accepting Dante's prophetic truth claims on their own terms, Teodolinda Barolini proposes a "detheologized" reading as a global new approach to the Divine Comedy. Not aimed at excising theological concerns from Dante, this approach instead attempts to break out of the hermeneutic guidelines that Dante structured into his poem and that have resulted in theologized readings whose outcomes have been overdetermined by the poet. By detheologizing, the reader can emerge from this poet's hall of mirrors and discover the narrative techniques that enabled Dante to forge a true fiction. Foregrounding the formal exigencies that Dante masked as ideology, Barolini moves from the problems of beginning to those of closure, focusing always on the narrative journey. Her investigation—which treats such topics as the visionary and the poet, the One and the many, narrative and time—reveals some of the transgressive paths trodden by a master of mimesis, some of the ways in which Dante's poetic adventuring is indeed, according to his own lights, Ulyssean.

This Italian reference grammar provides students, teachers and others interested in the Italian language with a comprehensive, accessible and jargon-free guide to the forms and structure of Italian. Whatever their level of knowledge of the language, learners of Italian will find this book indispensable: it gives clear and detailed explanations of everything from the most elementary facts such as the relation between spelling and pronunciation, or the forms of the article, to more advanced points such as the various nuances of the subjunctive. Formal or archaic discourse is distinguished from informal, everyday usage, and regionalisms are also indicated where appropriate. The authors have taken care to make it an easy and illuminating reference tool: extensive cross-referencing enables readers to quickly find the information they require, and also stimulates them to discover new, related facts.

Spine title: Muirhead's Southern Italy.

Questa raccolta di poesie e di racconti popolari anonimi in dialetto molisano tracciano il percorso di due storie che, pur diversificate, si compenetrano e si completano a vicenda: la storia individuale dell' autore e la storia collettiva della società di un paese del Sud. Le immagini di un mondo apparentemente immobile e arcaico si alternano alle vicende di una realtà storica complessa e tormentata, nel cui magma vecchio e nuovo si scontrano e si fondono. This collection of poems and anonymous folktales in the Molisan dialect traces the unfolding of two stories which, although distinct, interweave and complete each other: the author's individual story and the story of a town in the South of Italy. The images of an apparently immobile and archaic world alternate with the events of a complex and tormented historical reality, in whose magma the new and the old clash and fuse."
