Organization in Sociology A broad definition of an organization could be said to be that of any purposeful arrangement of social activity that implies active control over human relations ordered for particular ends.

Organization in Sociology - Sociology of Organizations ...

Sociological Theory. The study of work, industry, and economic institutions is a major part of sociology because the economy influences all other parts of society and therefore social reproduction in general. It doesn ' t matter if we are talking about a hunter-gatherer society, pastoral society, agricultural society, or industrial society; all are centered around an economic system that affects all parts of society, not just personal identities and daily activities.

Sociology of Work and Industry - ThoughtCo

I work in the government sector and am constantly dealing with a variety of people with very different views and I feel Sociology has allowed me to work with more diversity. My sociology background has taught me how to organize, keep, and manage data, which as a school counselor is vital, and it has taught me about social problems and norms.
