A groundbreaking reference about diagnosing Lyme disease and chronic illness traces the heated debate that has prevented patients from obtaining adequate care, outlining the author's plan for identifying and treating chronic illness using methods for promoting best-possible outcomes.

From one of the country's foremost doctors comes a ground-breaking book about diagnosing, treating and healing Lyme, and peeling away the layers that lead to chronic disease. You may not know that you have Lyme. It can mimic every disease process including Chronic Fatigue Syndrome, Fibromyalgia, autoimmune conditions like MS, psychiatric conditions like depression and anxiety, and cause significant memory and concentration problems, mimicking early dementia. It is called the "Great Imitator," and inaccurate testing-combined with a fierce, ongoing debate that questions chronic infection-makes it difficult for sufferers to find effective care. When Dr. Richard Horowitz moved to the Hudson Valley over two decades ago to start his own medical practice, he had no idea that he was jumping into a hotbed of Lyme disease. He would soon realize that many of the chronic disease diagnoses people were receiving were also the result of Lyme-and he would discover how once-treatable infections, in the absence of timely intervention, could cause disabling conditions. In a field where the number of cases is growing exponentially around the world and answers remain elusive, Dr. Horowitz has treated over 12,000 patients and made extraordinary progress. His plan represents a crucial paradigm shift, without which the suffering will continue. In this book, Dr. Horowitz: · Breaks new ground with a 16 Point Differential Diagnostic Map, the basis for his revolutionary Lyme treatment plan, and an overarching approach to treating all chronic illness. · Introduces MSIDS, or Multiple Systemic Infectious Disease Syndrome, a new lens on chronic illness that may prove to be an important missing link. · Covers in detail Lyme's leading symptoms and co-infections, including immune dysfunction, sleep disorders, chronic pain and neurodegenerative disorders · providing a unique functional and integrative health care model, based on the most up-to-date scientific research, for physicians and health care providers to effectively treat Lyme and other chronic illnesses. Cutting through the frustration, misinformation and endless questions, Dr. Horowitz's enlightening story of medical discovery, science and politics is an all-in-one source for patients of chronic illness to identify their own symptoms and work with their doctors for the best possible treatment outcome.

An award-winning science writer traces our millennia-long effort to understand the phenomenon of gravity—the greatest mystery in physics, and a force that has shaped our universe and our minds in ways we have never fully understood until now.

"Attorney and Christian researcher Edward Hendrie investigates and reveals one of the greatest exposes of all time. . . . a book you don't want to miss. Solving the Mystery of Babylon the Great is packed with documentation. Never before have the crypto-Jews who seized the reins of power in Rome been put under such intense scrutiny." Texe Marrs, Power of Prophecy. People have wondered and debated for centuries about the identity of the mysterious Babylon the Great in the book of Revelation. Solving the Mystery of BABYLON THE GREAT examines the historical evidence in light of the scriptures and solves the mystery. The evidence leads to the ineluctable conclusion is that the Roman Catholic Church was established by crypto-Jews as a false "Christian" front for a Judaic/Babylonian religion. That religion is the nucleus of a world conspiracy against man and God. That is not a soft conspiracy theory based upon speculation, but rather the hard truth based upon authoritative evidence, which is documented in this book. Texe Marrs explains in his foreword to the book: "Who is Mystery Babylon? What is the meaning of the sinister symbols found in these passages? Which city is being described as the 'great city' so full of sin and decadence, and who are its citizens? Why do the woman and beast of Revelation seek the destruction of the holy people, the saints and martyrs of Jesus? What does it all mean for you and me today? Solving the Mystery of Babylon the Great answers these questions and more. Edward Hendrie's discoveries are not based on prejudice but on solid evidence aligned forthrightly with the 'whole counsel of God.' He does not condone nor will he be a part of any project in which Bible verses are taken out of context, or in which scriptures are twisted to mean what they do not say. Again and again you will find that Mr. Hendrie documents his assertions, backing up what he says with historical facts and proofs. Most important is that he buttresses his findings with scriptural understanding. The foundation for his research is sturdy because it is based on the bedrock of God's unshakable Word."
