How 4chan and 8chan fuel white nationalism, inspire violence, and infect politics. The internet has transformed the ways we think and act, and by consequence, our politics. The most impactful recent political movements on the far left and right started with massive online collectives of teenagers. Strangely, both movements began on the same website: an anime imageboard called 4chan.org. It Came from Something Awful is the fascinating and bizarre story of sites like 4chan and 8chan and their profound effect on youth counterculture. Dale Beran has observed the anonymous messageboard community's shifting activities and interests since the beginning. Sites like 4chan and 8chan are microcosms of the internet itself—simultaneously at the vanguard of contemporary culture, politics, comedy and language, and a new low for all of the above. They were the original meme machines, mostly frequented by socially awkward and disenfranchised young men in search of a place to be alone together. During the recession of the late 2000 ' s, the memes became political. 4chan was the online hub of a leftist hacker collective known as Anonymous and a prominent supporter of the Occupy Wall Street movement. But within a few short years, the site ' s ideology spun on its axis; it became the birthplace and breeding ground of the alt-right. In It Came from Something Awful, Beran uses his insider ' s knowledge and natural storytelling ability to chronicle 4chan's strange journey from creating rage-comics to inciting riots to—according to some—memeing Donald Trump into the White House.

The ultimate guide to monster girls that took fandom by storm--for Mature fans only! Monster Girl Encyclopedia Volume 1 is the first in a series of highly detailed illustrated books that contains one hundred profiles of wickedly lascivious monster girls. Considered by many fans to be the definitive source for sexy monster girls and the worlds they inhabit, Monster Girl Encyclopedia is a must-have purchase for fans of Monster Musume, Nurse Hitomi 's Monster Infirmary, and other monster titles. This deluxe, large-trim hardcover with foil highlights is shrink-wrapped for Mature readers, and includes 240 pages of in-depth bios, one hundred gorgeous full-color illustrations, numerous tantalizing black and white spot illustrations, diagrams, and more. Told from the perspective of a wandering monster girl scholar, these vibrantly illustrated pages teach us about sensual elves, dwarves, succubi, centaurs, mermaids, and much more, like you 've never seen them before.

First published in the pulp magazine *Weird Tales* in February 1928, 'The Call of Cthulhu' is a terrifying trilogy of horror stories that has influenced writers like William S. Burroughs, Ramsey Campbell, Thomas Ligotti and Stephen King.

“ Fascinating. Doidge 's book is a remarkable and hopeful portrait of the endless adaptability of the human brain. ” —Oliver Sacks, MD, author of *The Man Who Mistook His Wife for a Hat* What is neuroplasticity? Is it possible to change your brain? Norman Doidge 's inspiring guide to the new brain science explains all of this and more An astonishing new science called neuroplasticity is overthrowing the centuries-old notion that the human brain is immutable, and proving that it is, in fact, possible to change your brain. Psychoanalyst, Norman Doidge, M.D., traveled the country to meet both the brilliant scientists championing neuroplasticity, its healing powers, and the people whose lives they 've transformed—people whose mental limitations, brain damage or brain trauma were seen as unalterable. We see a woman born with half a brain that rewired itself to work as a whole, blind people who learn to see, learning disorders cured, IQs raised, aging brains rejuvenated, stroke patients learning to speak, children with cerebral palsy learning to move with more grace, depression and anxiety disorders successfully treated, and lifelong character traits changed. Using these marvelous stories to probe mysteries of the body, emotion, love, sex, culture, and education, Dr. Doidge has written an immensely moving, inspiring book that will permanently alter the way we look at our brains, human nature, and human potential.

"This standard work of reference... continues offering the happy blend of grammar and lexicon." --*American Reference Books Annual* For many years, *Hawaiian Dictionary* has been the definitive and authoritative work on the Hawaiian language. Now this indispensable reference volume has been enlarged and completely revised. More than 3,000 new entries have been added to the Hawaiian-English section, bringing the total number of entries to almost 30,000 and making it the largest and most complete of any Polynesian dictionary. This new edition is more than a dictionary. Containing folklore, poetry, and ethnology, it will benefit Hawaiian studies for years to come.

Celebrating 10 years of *Lunch with Derek Hansen* - a new edition of his bestselling first *Lunch* novel. Ramon, self-styled master storyteller, has steered his listeners down a sinister path littered with love and betrayal, secret police and death squads. But as the Argentinian's tale nears its startling conclusion, his audience is struck with horror at the possibility that Ramon's clever invention is nothing more than the cunningly disguised chronicle of his own shadowy past. Is Ramon a gifted artist of the imagination or the perpetrator of a terrible act of revenge that defies all forgiveness? 'Hansen is a great novelist. Only the bravest and most confident writer could grant his characters such intelligence and insight and still remain in command' - *West Australian*.

With the popularity of *Pokemon* still far from waning, Japanese animation, known as anime to its fans, has a firm hold on American pop culture. However, anime is much more than children's cartoons. It runs the gamut from historical epics to sci-fi sexual thrillers. Often dismissed as fanciful entertainment, anime is actually quite adept at portraying important social and cultural issues like alienation, gender inequality, and teenage angst. This book investigates the ways that anime presents these issues in an in-depth and sophisticated manner, uncovering the identity conflicts, fears over rapid technological advancement, and other key themes present in much of Japanese animation.

When sarcastic loner Haruka gets transported with his class to another world, he's not wild about adventuring, but he wouldn't mind having some cool powers. Unfortunately, he's last in line when the magic cheat skills get divvied up, so by the time it's Haruka's turn, there are no good choices left. Now Haruka will have to take on this fantasy world the hard way--on his own, with a hodgepodge of bizarre skills! When infighting and chaos break out among his classmates, can this loner come to the rescue?
