The true story of a 100% mechanical Forex\* trading system that returned over 1000% inside 13 months taking a starting bank of 10,000 GBP to over 100,000 GBP The title of the book is a bold one. To be the ultimate 'Holy Grail' trading system it would have the ability to automatically trade and have zero discretion. In short, a 100% mechanical system in which the person trading with it does not matter, the result will be the same. It would be a currency trading system that does not care if you are having a bad day, are on holiday or if you have had an argument with your partner in the last hour. The entries, exits, trailing stops and money management must have no user input whatsoever. All the user has to do is switch it on and wait. The forum boards of the internet are full of people searching for this ultimate trading system. Thousands of traders every day search, test and simulate for hours looking for this 'golden egg' laying goose. Most believe that it does not exist nor ever has. This book is here to prove to you that such a system did exist and was discovered by a few home based traders just like you. It can be found again. Here is my question to you. "What would you really do if you found such a system?" One that worked month after month? One that proved itself not just for weeks or months, but for years How much would you risk? How would you trade it? How would your emotions handle such a guaranteed' system? Well, Not only does this trading book tell the story of how the trading system was built, it also gives you the full trading system and strategy, free and clear for the very first time. The actual Forex trading methodology has remained a closely guarded secret for over 10 years! Nothing is held back, you will discover.. Trade by trade entry levels Trading timeframes Trade exit levels Optimum money management strategy Trailing stop settings Full results and account screenshots Could you be the next trader to find a Holy Grail system? The clues are all here. You Will Discover... What changes you should be wary of when trading your system and strategy What happens to your mind when all of your hard work comes together What happens to your mind when everything looks wrong The true reason for a system failing (hint: it mostly isn't the system) Their personal story unfolds within these pages, step by step and month by month, demonstrating how their discovery changed them forever. With full disclosure for the very first time this book shows every trade, every change, every high and every low of a Forex trading system called simply 'Grail' Who Should Buy This Book? The quest for the Holy Grail in Forex is a metaphorical journey in financial analysis applied to the currencies' market. Much like the Templar knights sought the Holy Grail over the centuries, the author guides the trader along dark path, in a quest for the golden rules that underpin profit in the currency trading. Some of the main tools in classic financial analysis are here analyzed in depth, clarifying which of them actually work in the current markets, and reaching the conclusion that common technical indicators alone are not enough to take a trader to the Holy Grail of financial success. To help the reader develop a firm grasp on currency trading analyses and be consistently profitable over time, the author will explore how to understand the moves of the big players and how to follow them. The author suggests 15 golden rules that can be used as a guide in the arduous search for the Holy Grail in forex. A new approach to the financial analysis. A quest for truths hidden to most; a different approach to the classic technical analysis. Reading and mastering the contents of this book, a knowledgeable trader will learn not to rely on now obsolete technical analysis indicators or to lean on the advice of the most diverse experts, but to adopt a holistic approach, and become able to assess what really moves the markets, how the balance of powers between the currencies works and fluctuates at any given moment. Ad Maiora.

The best investment strategy, for FOREX, stocks, binary options, futures and other markets. Really incredible, make money in the stock market with this strategy of 90% successes tested for more than 10 years by a trader or professional investor 100% profitable guaranteed. The difficulty is something that can be overcome, and win!

The holy grail of tradingMany traders are looking for the holy grail of trading, but can't find it. They search in the wrong direction or too far away. They under estimate the mental power of trading, or they don't know how to reach this holy grail in themselves.“We need to learn to think and act differently, create a new 'mind set', one which often goes against our nature. Before you can achieve this you have a long way to go. This book will help you.”The holy grail of trading is all about the mindset you need to be successful in trading. It shows you how to achieve great results by working on yourself. And it tells you how you do that. This book has allready saved many Dutch traders, lots of money.“Traders and investors, who add loss to loss, have to start looking at themselves, and not at the volatility of the markets. Many of the pitfalls are retraceable to emotional trading, which can leave massive holes in a trader's portfolio.According to the writers of The Holy Grail of Trading only 20% of trading is knowledge, the other 80% is in your head. This is also the most important message of the book. Trading requires behaviour which goes against your intuition. This is why the many pitfalls to the traders are discussed. The fear to lose, getting out of a transaction to early, ignore their earlier decisions or trade too often. Many traders will sadly recognise themselves in this.”-De Financiële Telegraaf, the Netherlands, 6 October 2012With the publication of this book, the website theholygrailoftrading.com was launched. On this website traders can do several tests to test their discipline, emotion and mindset.
