syndrome, they'll look at the person's health records to check for inconsistencies between their claimed and actual medical history.

Munchausen's syndrome - NHS

The person behind the dementia. Life story work and reminiscence are inextricably linked. They both involve focusing on a person's past and bringing their history to life – and into the present. The greatest benefit of this work is that it lifts a person's mood – enabling them to talk about the 'good old days' and share their ...
