NHS England, NHS Wales (GIG Cymru), and NHS Scotland provide health care services in Great Britain. The publicly funded health care service in Northern Ireland isn't officially called the NHS, it's actually called Health and Social Care Services (HSC). Each NHS organisation and the HSC provide health care services free at the point of delivery.

### ~~What is the NHS? - Full Fact~~

Visible manifestations of healthcare culture include the distribution of services and roles between service organisations (such as the long established divides between secondary and primary care and between health and social care), the physical layouts of facilities (receptionists behind desks and doctors in consulting rooms), the established pathways through care (including the ubiquitous outpatients appointment), demarcation between staff groups in activities performed (and the tussles ...

The 10 Essential Public Health Services (EPHS) describe the public health activities that all communities should undertake. For the past 25 years, the EPHS have served as a well-recognized framework for carrying out the mission of public health. The EPHS framework was originally released in 1994 and more recently updated in 2020. The revised version is intended to bring the framework in line with current and future public health practice.

WASHINGTON, September 1, 2020 □ The Federal Communications Commission (FCC), U.S. Department of Health and Human Services (HHS), and U.S. Department of Agriculture (USDA) today announced that they have signed a Memorandum of Understanding to work together on the Rural Telehealth Initiative, a joint effort to collaborate and share information to address health disparities, resolve service provider challenges, and promote broadband services and technology to rural areas in America.

### ~~Federal Communications Commission, U.S. Department of ...~~

CONTEXT: Policy discussions about improving the U.S. health care system increasingly recognize the need to strengthen its capacities for delivering public health services. A better understanding of how public health delivery systems are organized across the United States is critical to improvement.
