This book tells dozens of stories of such discoveries, of the treasured old tractor parked in a shed since 1927, of the pristine model unearthed at an estate sale, of the broken-down old beauty stashed in a barn where generations of children have made their secret hideaways. These are the classic tractors that are often as hard to find as a needle in a haystack—but far more fun to discover, as all of these delightful stories make abundantly clear.

Media and Visual Cultures explores the inter-American dimension of media production in the hemisphere, including cinema and television, photography and art, journalism, radio, digital culture and issues such as freedom of expression and intellectual property.
